## Down on you

And so I came to fall in love but it was love that came to find me  
and I can't go back  
and as a matter of fact  
I'm not going back

cause I found me a friend a kind of friend that would let me  
get down on you  
yeah I'm talking like fool  
let me go down on you  
na na na

and so I came for a while but I found that  
that I want to stay  
cause you give it all away  
and I want to say

that I came for the weather but I found that  
that I need to stay  
cause you give it all away  
and I want to say  
na na na

and I was lost for a while but I found that  
I had a place to be  
you've given this to me  
a place just for me

and I found I had a friend a kind of friend that would let me get down on you  
yeah I'm talking like a fool  
let me go down on you  
na na na

and I found I had a friend a kind of friend that would let me get down on you  
yeah I'm talking like a fool  
let me go down on you.
