Hey, Hey Its Me

Hey hey its me I'm here
does anybody know its me
hey hey I'm clean I'm cured
does anybody know its me

well maybe next time around
you'll be the lonely one
and I'll be the one to set you free
does anybody know its me
doesn't anybody notice me
does anybody know its me

hey hey that's me you hear
is anybody listening to me
hey hey that's me in the mirror
there's nobody looking at me
is anybody looking at me

well maybe next time around
you'll be the lonely one
and I'll be the one to set you free
does anybody know its me
doesn't anybody notice me
does anybody know its me

does anybody know that it's me?
