I Don't Like The Way That You Look At Me

I don't like the way that you look at me
I'm not blind I see what I want to see
feel the noise and be who I want to be
I don't like the way that you look at me
now now now go right now again

I say these things I say what I want to say
done my time still you think that I ought to pay
lost my mind trying to please you in any way
if that's your game then I don't want to play
now now now go right now again
now now now go right now again

I don't like the way that you look at me
spent some time trying to be who you thought I'd be
lost my mind so you said so repeatedly
I don't like the way that you look at me
now now now go right now again
now now now go right now again

I don't like the way that you look at me
I'm not blind I see what I want to see
feel the noise and be who I want to be
I don't like the way that you look at me
now now now go right now again
now now now go right now again

I don't like the way that you look at me
I don't like the way that you look at me.
