I love you too

Where you going tonight
where you gonna be and will you be longing for your lover
where you going tonight
where you gonna be there's something I've got to tell you
and there's something I've got to tell you
yeah I know that you think that I'm special
but I hope that you'll say I love you
cause I love you I love you I love you I love you I love you I love you I love you
I love you too I love you too

here I sit on the phone
talking to the woman that I love more than anyone
she says she's really got to go
before you do there's something I've got to tell you
and there's something I've got to tell you
yeah I know that you think that I'm special
but I hope that you'll say I love you
cause I love you I love you I love you I love you I love you I love you I love you
I love you too I love you too I love you too I love you too

and there's something you need to tell me
yeah I know that you think that I'm special
but I hope that you'll say I love you
cause I love you I love you I love you I love you I love you I love you I love you
I love you too I love you too I love you too I love you too

where you going tonight
where you gonna be and will you be longing for your lover
where you going tonight
where you gonna be there's something I've got to tell you
and there's something you need to tell me
yeah I know that you think that I'm special
but I want to hear Joel I love you
cause I love you I love you I love you I love you I love you I love you I love you
I love you too I love you too I love you too I love you too

and there's something you need to tell me
yeah I know that you think that I'm special
but I want to hear Joel I love you
cause I love you I love you
I love you too I love you too I love you too I love you
too.
