## I've Been There Before

You say you've been cheated  
I don't believe it  
hope you get this message  
cause I'm not going to send it  
cause I've been there before  
I've been there before  
I've been there before  
I've been there before

hate is losing a sister  
hate's from faith in a brother  
love it taken away  
day by day we say  
I've been there before  
I've been there before  
I've been there before  
I've been there before

leaving is the answer  
can't help but want to face her  
looking for a new road  
a road I will go  
I've been there before  
I've been there before  
I've been there before  
I've been there before
