Lay your head

Lay your head upon my shoulder
lay your body next to mine
lay your head upon my shoulder
lay your body next to mine

I know you want someone to love you
I know you want someone to be there
so lay your head upon my shoulder
lay your body next to mine

Come to me baby
come take my hand
come with me honey
I'll be your man

Touch me here it would feel much better
take me down do me in
I know you want someone to love you
I know you want someone to be there
so lay your head upon my shoulder
lay your body next to mine

Come to me baby
come take my hand
come with me honey
I'll be your man.
