Make Me Proud

What ever you're thinking get it out of your head
you've drown and you're sinking and I heard what you said
I feel I'm on fire I feel kind of sad
I lost the desire you lost what you had

but don't make it easy to get beat back to the ground
don't try to please me cause I may not stick around
I know you might need me but it's you I hope you found
don't make it easy make me proud
make me proud

I know it's confusing another voice in your head
you're not used to losing and you gave all you had
you feel you're on fire you feel kind of mad
get back that desire give it all that you can

but don't make it easy to get beat back to the ground
don't try to please me cause I may not stick around
I know you might need me but it's you I hope you found
don't make it easy make me proud
make me proud
make me proud

and don't make it easy to get beat back to the ground
don't try to please me cause I may not stick around
I know you might need me but it's you I hope you found
don't make it easy make me proud
make me proud
make me proud.
