Now

After reading your words I fell in love with your soul  
after hearing your voice I fell in love with your heart  
after seeing your face I fell in love with your touch  
after knowing your all I'm in love with you now

we never met like lovers meet but we connect you and me  
from the moment we kissed and so it would be  
that after reading your words I fell in love with your soul  
after knowing your all I'm in love with you

now I am yours and always will be  
now you are mine for all eternity

after reading your words I fell in love with your soul  
after hearing your voice I fell in love with your heart  
after seeing your face I fell in love with your touch  
after knowing your all I'm in love with you now

we never met like lovers meet but we connect you and me  
from the moment we kissed and so it would be  
that after reading your words I fell in love with your soul  
after knowing your all I'm in love with you now

now I am yours and always will be  
now it only matters what you think of me  
now you are mine for all eternity  
now I'm feeling loved and happy just to be

now I am yours and always will be  
now it only matters what you think of me  
now you are mine for all eternity  
now I'm feeling loved and happy just to be.
