## The hole in my heart

I like the way that you dance in the moonlight  
and I like the way that you say my name  
say it again say you'll always love me  
come to me now make love again

its not the way that I might love you  
its not the way I walk beside you  
more than these words I'll always love you  
the hole in my heart is yours to fill forever  
the hole in my heart you'll fill forever

and I like the way that the sun shines around your  
and I like the way that you say my name  
say it again say you'll always love me  
come to me now make love again

its not the way that I might love you  
its not the way I walk beside you  
more than these words I'll always love you  
the hole in my heart is yours to fill forever

the hole in my heart you'll fill forever  
the hole in my heart you'll fill forever  
the hole in my heart you'll fill forever  
the hole in my heart

I like the way that you dance in the moonlight  
and I like the way that you say my name  
say it again say you'll always love me  
come to me now make love again

its not the way that I might love you  
its not the way I walk beside you  
more than these words I'll always love you  
the hole in my heart is yours to fill forever

the hole in my heart you'll fill forever  
the hole in my heart you'll fill forever.
