Your everything

I like your new car  
I like your hair now  
and I like your everything

I like your girlfriends  
I like your mom and dad  
and I like your everything

why now why now  
why now why now  
why now why now

I need you right now  
there's no one like you  
and I like your everything

I like your girlfriends  
I like your mom and dad  
and I like your everything

why now why now  
why now why now  
why now why now

I like your new car  
I like your hair now  
and I like your everything

I like your girlfriends  
I like your mom and dad  
and I like your everything

why now why now  
why now why now  
why now why now.
