

words and music
by
Joel Justin

I can't live within without you

You're making me crazy
you're driving me mad
your the best thing that I ever had

you say when your ready
I'll speak from my heart
let's get this thing off to a magic start

cause I think I really love you
and I think I need to tell you
I can't live within without you

you're making me crazy
you're driving me mad
I'm the best thing that you ever had

so where do we take this
and where do we stop
let's get this thing off to a magic start

cause I think I really need you
and I think I need to tell you
I can't live within without you

cause I think I really need you
and I think I need to tell you
I can't live within without you

you're making me crazy
you're driving me mad
your the best thing that I ever had

you say when your ready
I'll speak from my heart
let's get this thing off to a magic start

cause I think I really love you
and I think I need to tell you
I can't live within without you

cause I think I really love you
and I think I need to tell you
I can't live within without you.
