## The love of a letter (In a song)

Well I sing in the morning and dance out the night  
and I feel that my life is all right  
and I scream at the winter and strip in the summer  
and get high on the eye of moonlight  
but there's a changing a coming on  
and I won't have this feeling for long  
and I know that forever I've got to deliver this love of a letter in a song

Well there's a pretty little woman that waits at the door  
and she knows that I'm looking for a fight  
yet she keeps me around and she cools me down  
cause she knows that it's payday tonight  
but in the morning I know I'll be gone  
back on the road that I long  
and I know that forever I've got to deliver this love of a letter in a song

You'll have to chase me down the road  
you'll have to chase me down the road  
you'll have to chase me down the road tonight

Well I owe everyone from my mother to my son  
and I know that I'm getting kinda lite  
yet I bring on the troubles and dance in the bubbles  
and I'll give ya one hell of a fight  
cause in the morning I know I'll be gone  
back on the road that I long  
and I know that forever I've got to deliver this love of a letter in a song

You'll have to chase me down the road  
you'll have to chase me down the road  
you'll have to chase me down the road tonight

Well I sing in the morning and dance out the night  
and I feel that my life is all right  
but now I'm missing the lady and the love from the baby  
and I wonder should I turn back my flight  
but there's a changing a coming on  
and I won't have this feeling for long  
cause I know that forever I've got to deliver this love of a letter in a song.
