

We only wanted to be friends

words and music

by

Joel Justin

It wasn't supposed to be like this we only wanted to be friends
why'd you let me go so far as to fall in love again
and why'd you let me hurt you I've made you so confused
still I love to be with you it's so good to feel used

I just want to make you happy it's not that hard to do
can I live without the love it's too bad we've got to choose
I could keep on writing about you and fill the pages complete
I'll pretend we're only friends again and accept my first defeat

It wasn't supposed to be like this we only wanted to be friends
why'd you let me go so far as to fall in love again
I'm so tired of dreaming every night that you and I are one
I wake up to the sound of your music but now the music's gone

Let's turn back the hands of time suppose we'd never met
I would be so low and lonely but you I'd never forget
I could keep on writing about you and fill the pages complete
I'll pretend we're only friends again and accept my first defeat

It wasn't supposed to be like this we only wanted to be friends
why'd you let me go so far as to fall in love again
And why'd you let me hurt you I've made you so confused
still I love to be with you it's so good to feel used.
